## REVOLUTION MARY RELEASES “GOLD” — A MOTIVATING ELECTRO-POP TRACK ABOUT INNER STRENGTH

Swiss independent artist Revolution Mary has recently released her debut single “GOLD.” The track blends pop and electronic elements with striking electric-guitar textures and a driving bassline — raw, direct, and full of attitude.

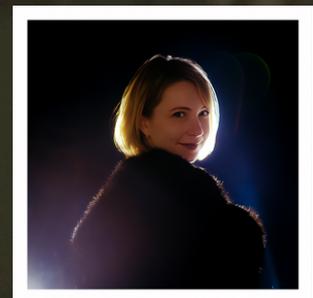

“GOLD” is a song for everyone who keeps moving forward despite headwinds: a musical push ahead, carried by an uplifting, high-energy atmosphere, warm yet powerful vocals, and a clear, confident drive. Lyrically, it’s about self-trust, inner strength, and the courage to stay on your own path — with a simple message at its core: the power we’re looking for has been inside us all along.

Revolution Mary has been writing and producing her own music for years — but with “GOLD,” she is sharing her sound officially with the public for the first time. This release marks the beginning of a new chapter: more music is already in motion.

As an artist, Revolution Mary stands for inner transformation, authenticity, and empowerment. Her music speaks to people who have been through a lot — and keep rising again. “GOLD” is not only a debut, but a statement: real change begins the moment you find the courage to revolutionize yourself.
